

WRI Publication Copy Policy

All WRI publications are available at no charge by downloading the document(s) directly from the WRI website. If you are unable to download the required document, you may contact WRI and request a single copy of any 2 (two) documents which will be mailed to you at no charge.

“Impact of Seismic Design Provisions of the International Building Code” is not a WRI publication and cannot be downloaded from the WRI website. To secure a copy of this non-WRI publication, you must contact WRI and make arrangements for payment and delivery. There are a limited number of copies of this publication available.

Due to their size, requests for one or more copies of WWR-500 Manual of Standard Practice and/or WWR-600 Structural Design Manual will be subject to a WRI copying and delivery charge consistent with WRI policy. Similarly, requests for more than two (2) other WRI publications will be subject to a copying and delivery charge. Requests of this nature should be directed to the WRI Marketing Department for coordination of copying, delivery and payment.
